MW REALTY CRM · TESTER HANDBOOK · MODULE 10

Premium Listings

Booking, scheduling, editing and stopping Premium (featured) placement for Properties and Commercial listings, paid from the plan or with credits

Where: CRM sidebar › Listings › **Premium** (`/crm/premium`). Also the star strip on every listing card in Properties and Commercial (**Make premium**, **Edit**, **Stop**, **Cancel**). **Who:** Super Admin, Agency, Agent. **Locks:** locked for accounts waiting for KYC (“Unlocks after KYC approval”). Accounts whose plan has no Premium and no credits can open the page but cannot add Premium.

1. What this module does

Premium means a **featured listing**. While Premium is live, the listing gets a Premium badge, appears in the **Premium Properties** section on the website home page and on the public `/premium-properties` page. It is not an external ad campaign; for website banners see the Advertisements guide.

Each booking has a start date and an end date. A start date in the future makes the booking **Scheduled**; it goes **Live** by itself on the start date and stops by itself after the end date.

Premium page

Title “Premium Listings”. Tabs **All**, **Live**, **Scheduled** with counts, a Premium quota chip (owners only) and the **Add Premium** button. Table columns: **Listing**, **Menu** (Property / Commercial), **Owner** (Super Admin only), **Status**, **Period**, **Actions**. 20 rows per page.

“Make a listing premium” popup

Chips with quota or credit balance, **Pay with** (Plan premium / Credits) when credits are available, listing picker (several listings at once), **Premium period** presets (7 / 15 / 30 / 60 / 90 days within the limit), **Start date**, **End date**, a summary line and a note on how the booking is counted.

Listing card strip

On Properties / Commercial cards: “Premium · ends DD Mon” with **Edit** / **Stop**, “Starts …” with **Edit** / **Cancel**, or **Make premium**. Without Premium in the plan: “Premium needs a paid plan”.

Public website

Home section “Premium Properties” (up to 12 listings, button “View More Details”), the `/premium-properties` page and its map view `/premium-properties/map` (Premium pins and a “Premium” badge on the map card).

2. How it works (business rules)

Pick listing(s) → Plan or credits → Start / end date → Scheduled or Live → Ends / Stopped

- **Statuses: Live** = featured now (period line shows “N days left”, “Ends within a day” or “Until stopped”). **Scheduled** = starts later (“Goes live in …”). When a booking ends or is stopped the row leaves the Premium page; the listing itself stays.
- **Dates:** start date cannot be in the past. Start = today means “starts now”. Both days count (1 Oct → 7 Oct = 7 days). The end date runs to the end of that day.
- **Automatic switching:** a background job runs every 15 minutes. It switches scheduled bookings to Live on their start date and removes Premium after the end date. Opening the Premium page also runs this check.
- **Plan quota, two kinds** (set per plan in Admin):

  - **At a time** — N listings may be live or scheduled at the same moment. The chip shows “X of N in use”. A slot frees up when a booking ends or is stopped.
  - **Per month** — N bookings per calendar month, counted in the month of the **start date**. Chip shows “X of N used this month” and “Resets 01 Mon”. Stopping early does **not** give the booking back; cancelling before it starts does.

- **Maximum length:** each plan may set a maximum number of days (“Max N days each”). With no maximum the chip says “No limit on length” (system cap 365 days).
- **Agency sharing:** an agent who belongs to an agency uses the **agency's** plan; the agency and its agents share one Premium quota.
- **Credits (optional):** when credits are switched on (or the account still has credits) an Agency / independent Agent can choose **Credits**. Lengths are fixed at **7, 15 or 30 days**; the end date follows the start date. The price per listing comes from the credit rates set by MW Realty. Credit bookings do not use the plan quota and their dates cannot be edited later. Cancelling before the start refunds the credits; stopping after the start does not.
- **Batch booking:** the picker on the Premium page books several listings with the same dates in one go. It is all-or-nothing: if one listing fails, nothing is saved and the error names that listing and ends with “Nothing was made premium.”
- **Eligible listings:** owners can only pick their own **active** listings that are not already Premium or scheduled. Super Admin can pick any listing (inactive ones are tagged “Inactive”).
- **Super Admin:** no plan limits, up to 365 days, and may tick **No end date — keep it premium until I stop it**. Up to 50 listings per batch.
- **Bookings set by MW Realty** on an owner's listing cannot be re-dated by the owner (the Edit icon is disabled with the tooltip “Set by MW Realty — contact us to change these dates”), but the owner can still Stop / Cancel them.
- **Other modules:** marking a listing **Sold / Rented** removes its Premium. The sidebar Credits card may appear when the Premium quota is used up. Website pages are cached for about 3 minutes, so public changes may take a short while to show.

3. Who can do what

Action	Super Admin	Agency	Agent
Open Premium page	**Yes, all listings**	**Own listings only**	**Own listings only**
Open while KYC pending	**n/a**	**Locked**	**Locked**
Add Premium from plan quota	**Yes, no limits**	**If plan includes Premium**	**If plan (or agency plan) includes Premium**
Pay with credits	**No (not needed)**	**If credits available**	**Independent agent only; agency agent: no**
No end date	**Yes**	**No**	**No**

Action	Super Admin	Agency	Agent
Edit dates	Any booking	Own plan bookings only	Own plan bookings only
Stop / Cancel	Any	On own listings	On own listings
See Owner column	Yes	No	No

An agency agent sees and books only listings they own, not the agency's listings assigned to them.

4. Fields and validation

Field / rule	Required	Rules and exact messages
Listings (picker)	Yes	At least one: “Tick at least one listing to make premium.” Owner picker limit = free slots (at-a-time plan) or monthly allowance (per-month plan); counter “X of N selected · plan limit”. With no slots: “No premium slots free on your plan”.
Start date	Yes	“Choose a start date.” Past date: “The start date can't be in the past.”
End date	Yes (except Super Admin with No end date, and credits)	“Choose an end date.” Before start: “The end date must be on or after the start date.” Too long: “Premium can run for at most N day(s) — you picked M.”
Plan without Premium	—	“Premium listings are not included in your plan. Upgrade to make your listings.”
Quota (at a time)	—	Batch too big: “You picked N listings but your plan has M premium slot(s) free right now.” Period full: “Your plan allows N premium listing(s) at a time and that period is already fully booked. Stop one, or pick dates after one ends.”
Quota (per month)	—	“You've used all N premium listing(s) for <Month>. Pick a start date in another month — your quota resets on 01 Mon.”
Listing state	—	“This listing is already premium.” · “This listing already has premium scheduled from DD Mon YYYY. Cancel it first to book new dates.” · “Only active listings can be made premium.”
Credits	—	Days must be 7, 15 or 30. Not enough credits: “You need N more credits — top up first.” (popup) or “This needs N credits but you have M. Top up to continue.” No price set: “No credit price is set for one of these listings — contact MW Realty.” Agency agent: “Credits are managed by your agency.”
Edit dates	—	Live booking: start is locked (“Already live — the start date can't change.”). Credit booking: “This premium was bought with credits for a fixed length, so its dates can't be changed…”. MW Realty booking: “This premium listing was set by MW Realty, so its dates can't be changed here.”

5. Test scenarios

Priority: **High** core flow / money / access · **Medium** · **Low** cosmetic. Use test accounts whose plan settings you know (quota type, limit, max days).

	Scenario	Steps	Expected result
PR-01	**Page loads with tabs and quota** High	1. Sign in as approved Agency with Premium in plan. 2. Open Listings › Premium.	Title “Premium Listings”, tabs All / Live / Scheduled with counts, Premium chip “X / N” (tooltip explains quota). All = Live + Scheduled.
PR-02	**KYC pending account** High	1. Sign in as Agency with KYC not approved. 2. Look at sidebar; open `/crm/premium` directly.	Premium shows a padlock, “Unlocks after KYC approval”. Direct URL does not show data (message “Your account is pending Super Admin approval.”).
PR-03	**Plan without Premium** Medium	1. Sign in as free-plan account with no credits. 2. Open Premium and Properties.	No **Add Premium** button; chip “Premium · not in plan · Upgrade”. Empty text “No premium listings yet.” Listing cards show “Premium needs a paid plan”.
PR-04	**Make one listing Premium now** High	1. Click **Add Premium**. 2. Tick one active listing, click preset **7 days**. 3. Click **Make premium now**.	Popup closes; row appears under Live with “today → end date” and “7 days left”. Quota used +1. Listing card shows “Premium · ends …”.
PR-05	**Schedule for a future date** High	1. Add Premium, set Start date to a future day, pick end date. 2. Check summary, submit.	Summary ends with “· scheduled, goes live automatically on the start date”; button says **Schedule premium**. Row under Scheduled with “Goes live in …”. Not on website yet.
PR-06	**Scheduled goes live by itself** High	1. Schedule a booking starting tomorrow. 2. Next day, wait up to 15 min, reload Premium.	Row moves to Live. Listing appears on home Premium section and `/premium-properties` (allow up to ~3 min cache).
PR-07	**Batch of several listings** High	1. Add Premium, tick 2–3 listings (chips appear under the list). 2. Submit.	Button reads “Make N listings premium”. All appear with the same dates. Counter “N of M selected · plan limit” correct.
PR-08	**Picker limit (at-a-time plan)** High	1. Use a plan with 2 slots, 1 used. 2. Open Add Premium, tick listings.	After 1 tick the other checkboxes are disabled; counter “1 of 1 selected · plan limit”.
PR-09	**At-a-time quota full** High	1. Fill all slots. 2. Reload Premium; try a card's **Make premium**.	Add Premium is disabled (no credits). Booking from a card is refused: “Your plan allows N premium listing(s) at a time and that period is already fully booked…”.
PR-10	**Per-month quota** High	1. Per-month plan: use all bookings for this month. 2. Try to book with a start date this month, then next month.	This month: “You've used all N premium listing(s) for <Month>. Pick a start date in another month — your quota resets on 01 …”. Next month start: accepted.

	Scenario	Steps	Expected result
PR-11	**Maximum length** Medium	1. Plan with max days (e.g. 30). Add Premium. 2. Check presets; type an end date beyond the limit.	Only presets within the limit (plus the max itself) show; end date picker capped. If forced: “Premium can run for at most 30 days.” / server message with day count.
PR-12	**Date validation** Medium	1. Clear Start date and submit. 2. Clear End date and submit.	“Choose a start date.” / “Choose an end date.” shown in red box. Nothing is booked.
PR-13	**No listing ticked** Low	1. Add Premium, tick nothing, submit.	“Tick at least one listing to make premium.”
PR-14	**Picker search and scroll** Medium	1. Type part of a title, reference or community. 2. Type nonsense; clear and scroll down.	Matching listings only; nonsense shows “No listings match “…”.”. Scrolling loads more 20 at a time. Already-Premium, scheduled and inactive listings are not offered to owners.
PR-15	**Pay with credits** High	1. Account with credits on and balance. Add Premium, choose **Credits**. 2. Tick a listing, choose 15 days, submit.	Presets 7 / 15 / 30 only; End date locked to start + 14 days; line “Costs N credits · M available”. After saving, balance drops by N (sidebar credits and Credits history). Plan quota unchanged.
PR-16	**Credits — not enough balance** High	1. Choose Credits with a cost above balance. 2. Submit.	Cost line shows “— N short.” and **Top up** link (if buying is allowed). Submit blocked: “You need N more credits — top up first.” No credits taken.
PR-17	**Quota used up opens on credits** Medium	1. Plan slots all used, credits available. 2. Click Add Premium.	Button is enabled; popup starts on **Credits**. “Plan premium (0 left)”.
PR-18	**Edit dates — scheduled booking** High	1. On a Scheduled row click the edit icon. 2. Move start and end, **Save dates**.	Title “Edit premium dates”. New period shown on the row; quota re-checked (overlap / month rules).
PR-19	**Edit dates — live booking** Medium	1. Edit a Live row. 2. Change only the end date.	Start date disabled with “Already live — the start date can't change.” End date earlier than today not allowed. Saved end shown.
PR-20	**Credit booking not editable** Medium	1. Find a row paid with credits. 2. Hover the edit icon.	Edit icon disabled. Only Stop / Cancel is available.
PR-21	**Cancel scheduled (plan)** High	1. Click **Cancel** on a Scheduled row. 2. Confirm **Cancel premium**.	Dialog “Cancel scheduled premium?” (“…no longer counts toward your plan.”). Row disappears; quota used −1.
PR-22	**Cancel scheduled (credits) refunds** High	1. Cancel a future credit booking. 2. Open Credits history.	Credits returned with entry “Refund — premium cancelled before it started”. Balance restored.

	Scenario	Steps	Expected result
PR-23	**Stop live booking** High	1. Click **Stop** on a Live row, confirm **Remove premium**. 2. Check quota and website.	Dialog “Remove premium now?”; per-month plans add “It still counts toward this month's quota.” Row gone. At-a-time: slot free again. Per-month: still counted. Credit booking: no refund. Badge gone from website (after cache).
PR-24	**Keep (dismiss) dialogs** Low	1. Click Stop, then **Keep premium**; click Cancel, then **Keep it**.	Nothing changes.
PR-25	**Expiry by end date** High	1. Book a listing ending today (or use a short booking). 2. After midnight + up to 15 min, check CRM and site.	Row removed from Premium; listing still active in Properties without a Premium strip; not on Premium sections of the website.
PR-26	**Inactive listing** Medium	1. As owner, deactivate a listing; open its card.	Make premium is not offered for listings that are not live (card shows review/status strip); listing not in the picker. Server message if forced: “Only active listings can be made premium.”
PR-27	**Super Admin — all owners, no end** High	1. Open CRM from Admin as Super Admin › Premium. 2. Add Premium, tick **No end date…**, submit.	Owner column visible; chips “Super Admin · no plan limits” and “Up to 365 days, or no end date”. Row shows “No end date” / “Until stopped”.
PR-28	**Owner cannot edit MW Realty booking** Medium	1. Super Admin makes an owner's listing Premium. 2. Sign in as that owner, open Premium.	Row visible; Edit icon disabled with tooltip “Set by MW Realty — contact us to change these dates”. Stop still possible.
PR-29	**Agency agent shares agency quota** High	1. Agency plan: 2 at a time. Agency books 1. 2. Sign in as one of its agents; open Premium.	Agent's chip shows the shared usage (1 / 2). No **Credits** option for the agent. Agent sees only their own listings.
PR-30	**Batch all-or-nothing** Medium	1. Per-month plan with 1 left this month: tick 2 listings, start this month. 2. Submit.	Error names the failing listing and ends “Nothing was made premium.” Neither listing becomes Premium.
PR-31	**Tabs, empty states, paging** Low	1. Click Live, Scheduled, All. With >20 rows use pagination.	URL gets `?status=`. Empty texts: “No listings are premium right now.” / “Nothing scheduled.” Pagination works.
PR-32	**Public home and Premium page** High	1. With a Live test booking open the home page. 2. Click “View More Details”; open the map view.	Listing shows in “Premium Properties” with Premium badge; on `/premium-properties` (residential and commercial together); Premium pin/badge on the map. With no live Premium listings the home section is hidden.
PR-33	**Sold listing loses Premium** Medium	1. Mark a Live Premium listing as Sold. 2. Open Premium and the website.	Listing no longer on Premium page or website Premium sections.
PR-34	**Commercial listing** Medium	1. Make a Commercial listing Premium.	Menu column shows “Commercial”; title link opens the Commercial listing; appears on `/premium-properties`.

	Scenario	Steps	Expected result
PR-35	**Phone width** Low	1. Open Premium and the popup at ~375 px width.	Table scrolls sideways inside its card; popup fields stack; buttons reachable.

6. Expected results checklist

- [ ] Live / Scheduled status always matches the dates; nothing goes live before its start date.
- [ ] The listing is on the home Premium section and `/premium-properties` only while Live.
- [ ] Quota chip and popup show correct used / limit, max days and reset date.
- [ ] At-a-time slots free up on stop or end; per-month bookings stay counted when stopped early.
- [ ] Credit cost and balance are shown before confirming; cancel-before-start refunds; stop-after-start does not.
- [ ] Batch errors name the failing listing and save nothing.
- [ ] Owners cannot re-date MW Realty or credit bookings; Super Admin can do everything.
- [ ] Stopping or expiry never deletes or deactivates the listing itself.

7. Known behaviour (not bugs)

- Start date = today books “now”; the summary says “today” and the row is Live straight away.
- Scheduled and expired bookings switch within about 15 minutes, not exactly at midnight. Website pages may lag up to ~3 minutes (cache).
- Home shows at most 12 Premium listings; the full list is on `/premium-properties`. Card order on the public page may change on each visit (Recommended sort is shuffled).
- On a per-month plan, a stopped booking still counts for that month. This is by design and is stated in the popup note.
- An owner can Stop / Cancel Premium that MW Realty set on their listing.
- Credit bookings are 7, 15 or 30 days only and cannot be re-dated.
- Premium page shows the owner's own listings only; an agency agent does not see agency listings assigned to them here.

Test-data cautions: use disposable test listings and sandbox accounts only. Do not spend real credits or real customers' plan slots. Do not top up with a real card unless told to (use the provided test payment details). Record quota and credit balance before and after each test.

8. Reporting a bug

Include: role and account, plan (quota type, limit, max days), credit balance before/after, listing reference, payment type (plan / credits), start and end dates entered, status shown in CRM, public URL checked, time (with time zone), expected vs actual, screenshot. Use test data only.
