MW REALTY CRM · TESTER HANDBOOK · MODULE 14

Agents

Agency team roster, invitations, join requests, Super Admin approval, suspend / remove, and the agent's "My Agency" side

Where: CRM sidebar › Listings › **Agents** (`/crm/agents` , `/crm/agents/create` , `/crm/agents/{id}`). Agent side: sidebar › Listings › **My Agency** (opens the older portal screen `/portal/agency`). Super Admin approvals: Admin › Clients › **Agency Agents**.
Who: Agency and Super Admin see **Agents**. Agents see **My Agency** instead.
Locks: Agents is locked for an Agency until KYC approval (padlock, tooltip “Unlocks after KYC approval”). Adding agents also needs a plan with agent slots.

1. What this module does

An **Agency** uses this module to build its team. It can add a brand-new agent, invite an agent who already has an MW Realty account, or accept an agent who asked to join. Every new member must be approved by **Super Admin** before they become active. Active agents can be given the agency's listings and leads. The agency can suspend, reactivate or remove an agent at any time.

The **Agent** sees the other side on **My Agency**: invitations to accept or decline, a form to request to join an agency, the current agency, and a **Leave agency** button.

My Agents (Agency)

Agent slots chip, four round-robin cards, Lead assignment bar, tabs **Active** / **Pending & Invited** / **Join Requests** / **History** with counts.

Add Agent

Two parts: **Invite an existing agent** (email, mobile or agent ID) and **Add a new agent** (full form with optional identity and broker documents).

Agent detail

Profile card, **Assigned agency listings**, **Membership history with your agency**, and the **Remove from agency** box.

All Agents (Super Admin)

Read-only list of every agent on the platform with agency, contact, experience, preferred areas and Active / Inactive status. Button **Agency approvals**.

Agency Agents (Admin)

Super Admin's approval queue: **Awaiting approval**, **Active**, **Suspended**, **Invited / Requested**, **Closed**. Buttons Approve, Reject, Suspend, Reactivate, Remove.

My Agency (Agent)

Invitations (Accept / Decline), Current agency, Request to join an agency (search box + **Send request**), Agency history, personal listings with **Transfer to agency**.

2. How it works (business rules)

2.1 Three ways an agent joins an agency

Agency adds a new agent → Pending admin approval → Super Admin approves → Active

Agency invites existing agent → Invitation sent → Agent accepts → Pending admin approval → Active

Agent requests to join → Join request → Agency accepts → Pending admin approval → Active

2.2 Membership statuses (label shown in the CRM)

Status label	Meaning	Tab on My Agents
Invitation sent	Agency invited an existing agent; waiting for the agent.	Pending & Invited
Join request	Agent asked to join; waiting for the agency.	Join Requests
Pending admin approval	Both sides agreed, or the agency created the agent; waiting for Super Admin.	Pending & Invited
Active	Member. Can receive listings and leads.	Active
Suspended	Still a member, but gets no new leads.	Active
Left	Left or was removed. History only.	History
Rejected	Super Admin rejected it (reason shown under the badge if given).	History
Declined	The invited agent, or the agency, said no.	History
Cancelled	Withdrawn by whoever started it, or closed by the system when the agent joined another agency.	History

2.3 Agent slots (plan limit)

- **Agent slots** chip shows “used / limit” (∞ when unlimited). A slot is used by every **Invitation sent**, **Pending admin approval**, **Active** and **Suspended** row. A **Join request** does not use a slot until the agency accepts it.
- When all slots are used, the **Add / Invite Agent** button is hidden and a blue note shows: “You've used all N agent slots on your plan. Upgrade your plan to add more agents.” If the plan has no agent slots at all: “Team agent accounts are available after you upgrade your plan.”
- Opening `/crm/agents/create` with no free slot sends you back to the list with a toast: “Your plan allows up to N team agent(s). Upgrade your plan to add more.” or “Team agent accounts are not included in your plan. Upgrade to add agents.” The same message appears if you accept a join request with no free slot.

2.4 Lead assignment and eligibility

- Only agents whose row is **Active** (and whose own account is approved and active) are **eligible**. Suspended, pending, invited, requested and left agents never get new leads.
- An enquiry on a listing that has an eligible assigned agent goes to that agent. Other new leads use the agency's **Lead assignment** setting: **Automatic round robin** (for the lead kinds ticked: Property enquiries, Generic enquiries, Facebook leads) or **Manual** (new leads wait in Unassigned).
- Stat cards: **Active agents in rotation**, **Last round-robin lead**, next agent (**Next in line**, or “No active agents” / “Leads stay with the agency”, or **Manual assignment**), **Unassigned agency leads** with a shuffle button to distribute them (shown only when there are unassigned leads and at least one active agent).
- The **Change** button opens the same Lead assignment dialog as the Leads module. In Automatic mode at least one lead kind must be ticked: “Choose at least one kind of lead for round robin, or switch to manual assignment.”

2.5 Suspend, reactivate, remove, leave

- **Suspend** (Active rows): “Agent suspended — they won't receive new leads until reactivated.” The agent gets a bell notification “Agency access suspended”. **Reactivate**: “Agent reactivated.”
- **Remove** opens the agent detail page at the **Remove from agency** box. Choose “Leave listings unassigned (round-robin)” or “Reassign listings to <agent>”, then **Remove agent** and confirm. Result: “<Name> was removed from your agency.”
- On remove or leave: the row becomes **Left**; the agent becomes independent; the agency's listings that were assigned to them move to the chosen agent or become unassigned (each change is recorded in the listing's assignment history); leads already assigned to them stay assigned; their personal listings and account are not changed. The agent gets an email and bell “Removed from agency” (when the agency removes them) or the agency gets a bell “Agent left your agency” (when the agent leaves).
- Plan: an agent who joined through an invitation, a new account or an accepted request moves onto the agency's plan (if the agency's plan includes team agents). Their own paid subscription stops renewing (no refund). When they leave they go back to the Free plan (a paid period that is still running is kept until it ends).

2.6 Notifications and emails

Event	Who is told	How
Agency invites an agent	Agent	Bell + email “Agency invitation” with button **Review Invitation**
Agent requests to join	Agency	Bell “Agent join request”
Invitation accepted / declined	Agency	Bell
Join request accepted / declined	Agent	Bell
Anything reaches “Pending admin approval”	Super Admins	Admin bell “Agency agent awaiting approval”
Super Admin approves	Agency + agent	Agency: bell + email “Agent approved”. Agent created by the agency: email “Your agent account is ready” with **Set Your Password** (link valid 7 days, works once). Other agents: bell + email “You joined <agency>”.
Super Admin rejects	Agency (+ agent unless the agency created the account)	Bell + email “Agent not approved” / “Agency membership not approved”

2.7 Agent side: My Agency

- An invitation shows “<Agency> invited you to join their agency” with a plan note and **Accept** / **Decline**. **Accept** is disabled while the agent is already in an agency. Accept → “Invitation accepted — Super Admin will approve your move to <Agency>.”
- An independent, approved agent can pick an agency in the **Search agencies…** box and click **Send request** → “Request sent to <Agency>.” Only one open request at a time. While waiting the page says the request “is waiting for the agency to accept” or “<Agency> accepted — waiting for Super Admin approval.” with a **Withdraw** link.
- A KYC-pending agent sees: “Once your account is approved you can request to join an agency, or accept an agency's invitation.”
- **Leave agency** (with confirmation) → “You have left <Agency>. You are now an independent agent.”

- **Your personal listings → Transfer to agency** moves one listing into the agency (cannot be undone by the agent; counts toward the agency's property limit).

3. Who can do what

Action	Super Admin	Agency	Agent
See **Agents** in the menu	**Yes**	**Yes**	**No (sees My Agency)**
View roster	**All agents, read-only**	**Own agency only**	**No**
Add / invite agent, accept / decline requests, cancel invitations	**No (in CRM)**	**Yes, if slots free**	**No**
Suspend / reactivate / remove	**In Admin › Agency Agents**	**Own agents**	**No**
Approve / reject pending members	**Admin › Agency Agents**	**No**	**No**
Accept invitation / request to join / leave	**No**	**No**	**Yes (accept and request need KYC approval)**
KYC pending	n/a	**Menu locked; page shows "Your account is pending Super Admin approval."**	**Can decline / leave only**

An agency can only open its own agents. Typing another agency's membership number in the URL shows an error and no data.

4. Fields and validation (Add a new agent)

Field	Required	Rules / limits
Full Name	Yes	Max 255 characters.
Email / Login Username	Yes	Valid email, max 255. Must not belong to any existing account (see duplicate rules).
Phone	Yes	Max 50. Must not belong to any existing account.
WhatsApp Number	No	Max 50.
Years of Experience	No	Whole number 0–80.

Field	Required	Rules / limits
Account Status	—	Read-only: “Pending Super Admin approval”.
Nationality, Emirates ID No., Passport No., BRN, Trade License No., TRN (VAT No.)	No	Text, max 100 (nationality) / 50 (numbers).
Passport Expiry, Trade License Expiry, TRN Expiry	No	Valid date.
Emirates ID Copy, Passport Copy, RERA Broker Card Copy, RERA Registration Certificate Copy, Trade License Copy	No	JPG, JPEG, PNG or PDF; max 4 MB each. Uploading any document marks the agent's KYC as submitted.
Invite: Email, mobile number, or agent ID	Yes	Exact match only. A number with fewer than 8 digits is treated as an agent ID.

Duplicate email or mobile on Add: a blue box appears at the top with the person's name and one of: “An agent with this email or mobile already exists. Send them an agency invitation instead?” (with button **Send agency invitation**), “This agent is already part of your agency.”, or “An account with this email or mobile already exists and cannot be added as a new agent.”

Invite errors: “No agent found with that email, mobile or agent ID.” · “That account is not an agent.” · “This agent is already part of your agency.” · “This agent currently works with another agency.” · “There is already an open invitation or request with this agent.”

5. Test scenarios

Priority: **High** core flow / data loss / access · **Medium** · **Low** cosmetic. Use test accounts: one approved Agency on a plan with agent slots (e.g. 2), one Agency on a plan with no slots, two independent approved Agents, one KYC-pending Agent, and Super Admin.

	Scenario	Steps	Expected result
AG-01	**Agency opens roster** High	1. Sign in as approved Agency. 2. Click **Agents**.	Title **My Agents**, Agent slots chip, four stat cards, Lead assignment bar, tabs with counts. Active tab selected.
AG-02	**Empty roster** Low	1. New agency with no agents opens Agents.	“No active agents yet — your listings and enquiries still work without them.” plus link **Add or invite an agent** (if slots free). Other tabs: “Nothing here.”
AG-03	**Add a new agent** High	1. Click **Add / Invite Agent**. 2. Fill Full Name, a new test email, a new phone. 3. Click **Save Agent**.	Toast “Agent added — they will be able to log in once Super Admin approves them.” Opens **Pending & Invited** tab; row status **Pending admin approval**, action **Cancel**. Slot count +1. Super Admin gets a bell notification.
AG-04	**Required fields** Medium	1. On Add a new agent, leave Name, Email or Phone empty and save.	Browser blocks submit on the empty required field. No agent created.
AG-05	**Field limits** Medium	1. Enter Years of Experience 81; save. 2. Upload a 5 MB PDF or a .docx as Passport Copy; save.	Save refused; red error list at top and under the field (e.g. must not be greater than 80; file type / 4 MB). No agent created.
AG-06	**Documents uploaded** Low	1. Add a new agent with an Emirates ID Copy (JPG < 4 MB). 2. As Super Admin, view the agent account in Admin.	Agent saved; KYC shows as submitted with the document attached.
AG-07	**Duplicate: independent agent** High	1. Add a new agent using the email of an existing independent agent.	No account created. Blue box: name + “An agent with this email or mobile already exists. Send them an agency invitation instead?” and button **Send agency invitation**. Clicking it sends the invite (see AG-09).
AG-08	**Duplicate: other account types** Medium	1. Add a new agent with the phone of one of your own agents. 2. Repeat with an agency's email.	“This agent is already part of your agency.” / “An account with this email or mobile already exists and cannot be added as a new agent.” No invite button.
AG-09	**Invite existing agent by email** High	1. In **Invite an existing agent**, type an independent agent's email. 2. Click **Send Invitation**.	Toast “Invitation sent to <Name>. Once they accept, Super Admin approves the move.” Pending & Invited tab shows **Invitation sent**. Agent gets bell + email “Agency invitation”. Slot used.
AG-10	**Invite by mobile and by agent ID** Medium	1. Invite using the agent's mobile (with and without “+”). 2. Cancel, then invite using the agent ID number.	Both find the same agent and send an invitation.

	Scenario	Steps	Expected result
AG-11	**Invite errors** Medium	1. Invite an unknown email. 2. Invite an agent already in another agency. 3. Invite the same agent twice. 4. Invite an agency's email.	Red text under the box: “No agent found with that email, mobile or agent ID.” / “This agent currently works with another agency.” / “There is already an open invitation or request with this agent.” / “No agent found…” (lookup is agents only).
AG-12	**Cancel invitation / pending add** Medium	1. On Pending & Invited click **Cancel** on a row. 2. Confirm with **Cancel it**.	Toast “Cancelled.” Row moves to History as **Cancelled**. Slot freed. Clicking **Keep** changes nothing.
AG-13	**Agent accepts invitation** High	1. Sign in as the invited agent. 2. Sidebar **My Agency** shows badge 1. Open it. 3. Click **Accept**.	“Invitation accepted — Super Admin will approve your move to <Agency>.” Agency's row becomes **Pending admin approval**; agency gets bell “Invitation accepted”. Badge clears.
AG-14	**Agent declines invitation** Medium	1. As invited agent click **Decline**.	“Invitation declined.” Agency's row moves to History as **Declined**; bell “Invitation declined”.
AG-15	**Two agencies invite the same agent** Medium	1. Agency A and Agency B both invite the same independent agent. 2. Agent accepts A; Super Admin approves. 3. Agent opens My Agency; Agency B opens Pending & Invited and History.	B's invitation is closed automatically and shows in B's History as **Cancelled**. The agent no longer sees B's invitation. B can no longer invite them: “This agent currently works with another agency.”
AG-16	**Agent requests to join** High	1. As independent approved agent open My Agency. 2. Search an agency in **Search agencies…**, pick it, click **Send request**.	“Request sent to <Agency>.” Page shows the request is waiting for the agency, with **Withdraw**. Agency sees badge on **Agents** and a row in **Join Requests**; bell “Agent join request”.
AG-17	**Second request blocked** Medium	1. With a request open, try to request another agency (e.g. reload in another tab).	Refused: “You already have a join request in progress.” The request form is hidden while a request is open.
AG-18	**Agent withdraws request** Low	1. Click **Withdraw**.	“Request withdrawn.” Agency's Join Requests count drops; row in History as **Cancelled**.
AG-19	**Agency accepts join request** High	1. Agency opens **Join Requests**, clicks **Accept**.	“Request accepted — now awaiting Super Admin approval.” Row moves to Pending & Invited. Agent gets bell “Join request accepted”. Slot used.
AG-20	**Agency declines join request** Medium	1. Click **Decline** on a join request.	“Request declined.” Row in History as **Declined**; agent gets bell “Join request declined”.
AG-21	**Accept request with no free slot** Medium	1. Fill all slots with invitations. 2. Accept a join request.	Toast “Your plan allows up to N team agent(s). Upgrade your plan to add more.” Request stays in Join Requests.

	Scenario	Steps	Expected result
AG-22	**Super Admin approves** High	1. Admin › Clients › Agency Agents › **Awaiting approval**. 2. Click **Approve** on the test row.	Row becomes Active. Agency's roster shows the agent on **Active** with **Active** badge and plan "Your plan". Agency gets email + bell "Agent approved". Any other open invitations/requests of that agent become **Cancelled**.
AG-23	**New agent sets password** High	1. After approving an agency-created agent (AG-03), open the test inbox. 2. Click **Set Your Password**, set it, then sign in at `/agent-login`.	Email "Your agent account is ready" received. Link opens the set-password page; after use the same link no longer works. Agent can sign in and their KYC is approved.
AG-24	**Super Admin rejects** Medium	1. In Agency Agents click **Reject**, enter a reason, confirm.	Agency's row moves to History as **Rejected** with the reason under the badge. Agency gets bell + email "Agent not approved". Slot freed.
AG-25	**Slots full** High	1. On a plan with 2 slots, have 2 rows in Active / Pending & Invited. 2. Open Agents; then type `/crm/agents/create`.	Chip shows 2 / 2 in red, **Add / Invite Agent** hidden, blue note about used slots. Direct URL returns to list with the slot toast.
AG-26	**Plan without agents** Medium	1. Sign in as Agency on a plan with no agent slots; open Agents.	"Team agent accounts are available after you upgrade your plan." Active tab empty text: "No agents yet — team agent accounts are available after you upgrade your plan."
AG-27	**Suspend and reactivate** High	1. On Active tab click **Suspend**. 2. Then click **Reactivate**.	Suspend: toast "Agent suspended — they won't receive new leads until reactivated.", badge **Suspended**, "Active agents in rotation" −1. Reactivate: "Agent reactivated.", counter back. Agent gets bell for each.
AG-28	**Suspended agent gets no leads** High	1. Agency in Automatic round robin with 2 agents; suspend agent A. 2. Send 3 test enquiries from the public site on agency listings with no assigned agent.	All 3 leads go to agent B. "Next in line" never shows A. With every agent suspended, new leads stay Unassigned and the card says "No active agents / Leads stay with the agency".
AG-29	**Listing agent routing** Medium	1. Assign agency listing L to agent A. 2. Send an enquiry on L. Then suspend A and send another.	First lead goes to A. Second lead uses round robin / Unassigned (A is not eligible).
AG-30	**Lead assignment settings** Medium	1. Click **Change**; choose **Manual**; save. 2. Choose Automatic and untick all lead kinds; save.	Manual: bar shows "Manual" and "New leads wait in Unassigned"; next-agent card shows "Manual assignment". All unticked: save blocked with the "Choose at least one kind of lead…" message.
AG-31	**Distribute unassigned** Medium	1. Have unassigned agency leads and ≥1 active agent. 2. Click the shuffle button on **Unassigned agency leads**; confirm **Distribute**.	Success toast; Unassigned count goes to 0; leads now spread across active agents (check Leads).

	Scenario	Steps	Expected result
AG-32	**Agent detail page** Medium	1. Click an active agent's name. 2. Use **View their leads** and a listing link.	Shows Agent ID, Email, Phone, Joined, counts, listings table (10 per page, paging works), membership history lines. Links open Leads filtered by that agent and the listing edit form.
AG-33	**Remove with reassignment** High	1. Agent A has 2 agency listings. Click **Remove** on A's row. 2. Choose “Reassign listings to B”, click **Remove agent**, confirm.	“A was removed from your agency.” A in History as **Left**. Both listings now show B as agent. A's existing leads stay assigned to A. A gets email + bell “Removed from agency”. Slot freed.
AG-34	**Remove without reassignment** Medium	1. Remove an agent leaving “Leave listings unassigned (round-robin)”. 2. Send an enquiry on one of those listings.	Listings have no agent; the new enquiry follows round robin / Unassigned.
AG-35	**Effect on removed agent** High	1. Sign in as the removed agent. 2. Open My Agency, Properties, Plans.	“Independent agent”. Personal listings unchanged; agency listings no longer theirs to manage. Plan back to Free (unless a paid period is still running). Can request to join again.
AG-36	**Agent leaves agency** High	1. As member agent open My Agency, click **Leave agency**, confirm.	“You have left <Agency>. You are now an independent agent.” Agency gets bell “Agent left your agency”; row in History as **Left**; agency listings of that agent become unassigned.
AG-37	**Transfer personal listing** Low	1. Member agent with a personal listing clicks **Transfer to agency**, confirms.	“Listing transferred to your agency — you remain its agent.” If the agency has no listing slots: “Your agency has reached its plan's property limit.”
AG-38	**Plan column** Low	1. Invite an agent who is on a paid plan; view Pending & Invited. 2. After approval, view Active.	Pending: “<Plan> (paid)” and “→ moves to your plan on approval, own plan dropped (no refund)”. Active: “Your plan” and “switched from <Plan> · no refund”.
AG-39	**KYC-pending agency** High	1. Sign in as an Agency not yet approved. 2. Look at Agents in the sidebar; open `/crm/agents`.	Padlock with tooltip “Unlocks after KYC approval”. Page shows “Your account is pending Super Admin approval.” with **Try again**; no data.
AG-40	**KYC-pending agent** Medium	1. Sign in as a KYC-pending agent with an invitation; open My Agency.	Request form replaced by “Once your account is approved you can request to join an agency, or accept an agency's invitation.” Clicking **Accept** is refused (sent to the dashboard with “Your account is pending Super Admin approval — complete your KYC documents to speed up review.”); **Decline** works.
AG-41	**Agent cannot open Agents** High	1. Sign in as an Agent; type `/crm/agents` and `/crm/agents/create`.	No Agents menu item. Pages show an error and no roster; nothing can be created.
AG-42	**Other agency's agent (URL)** High	1. Note a membership number from Agency A's detail URL. 2. As Agency B open `/crm/agents/{that number}`.	Error shown, no profile data. Agency B cannot suspend / remove it.

	Scenario	Steps	Expected result
AG-43	**Super Admin view** Medium	1. Open CRM from Admin; click Agents. 2. Page 2 via pagination; click **Agency approvals**.	“All Agents” table (15 per page): Agent, Agency (or “Independent”), Contact, Experience (“N yrs” or —), Preferred Areas, Active/Inactive. No add/suspend buttons. Button opens Admin › Agency Agents.
AG-44	**Tabs, counts and paging** Low	1. Click each tab; check the count next to it matches the rows. 2. With more than 15 rows, page through.	URL gets `?tab=`; counts correct; 15 rows per page; History shows **Ended** date column instead of **Since**.
AG-45	**Mobile width** Low	1. Open Agents and Add Agent at phone width (~375 px).	Stat cards wrap two per row; table scrolls sideways inside its card; buttons usable.

6. Expected results checklist

- [ ] No agent becomes Active without Super Admin approval.
- [ ] Agent slots count invitations, pending and active/suspended rows, but not join requests.
- [ ] Duplicate email / mobile never creates a second account; an invite is offered when possible.
- [ ] Only Active (not suspended / pending / left) agents receive routed or round-robin leads.
- [ ] Removing or leaving keeps the agent's account, personal listings and lead history; agency listings are reassigned or unassigned.
- [ ] Badges: agency's Agents badge = open join requests; agent's My Agency badge = open invitations.
- [ ] Bell notifications and emails arrive as listed in section 2.6.
- [ ] KYC-pending agency is locked out; agents and other agencies cannot see this agency's roster.

7. Known behaviour (not bugs)

By design:

- Super Admin's CRM Agents page is read-only. Approve / reject / suspend / remove for Super Admin is in Admin › Agency Agents.
- My Agency is still the older portal screen (different look from the CRM).
- Only rows with Active or Suspended status have a clickable name (detail page).
- Approving one membership automatically cancels that agent's other open invitations / requests.
- Leads already assigned to a removed agent are not moved automatically; reassign them from Leads.
- An agent linked to an agency directly by Super Admin (not through invite / request / new account) keeps their own plan; the Plan column shows “Own plan · <plan>”.
- The set-password link expires after 7 days and stops working once a password is set.

Test-data cautions: use only test email addresses and phone numbers you control — invitations and approvals send real emails. Do not invite real agents. Do not upload real ID or passport documents; use dummy images. Joining an agency can stop an agent's own paid subscription from renewing: never test with an account that has a real paid subscription.

8. Reporting a bug

Include: module (Agents / My Agency / Agency Agents), role and account email, plan and slot count, membership status before and after, Agent ID, exact steps, expected vs actual, time, and a screenshot (with the toast or error text visible). Use test data only.
