MW REALTY CRM · TESTER HANDBOOK · MODULE 21

My Profile

Account details, public page information, KYC documents, submitting for approval, login email change and document expiry emails

Where: CRM avatar (account) menu › **My Profile** (`/crm/profile`). **Who:** Agency and Agent accounts (each edits only its own profile). Not for Super Admin. **Locks:** none. My Profile is **available while KYC is pending or rejected** – completing it is how an account gets approved. It is on every plan. If 2FA set-up is required for the account, 2FA must be set up (or skipped, when allowed) first.

1. What this module does

My Profile is where an agent or agency keeps its own details. Some details are shown to buyers on the public agent / agency page. Others (licences, identity, documents) are private and are checked by MW Realty during **KYC** (identity and licence check). A new account must fill in its details, upload documents and press **Submit for Approval**. Super Admin then reviews and approves it. Until approval most CRM modules stay locked.

Cover

Photo (agent) or logo (agency), name, tag **Agent**/**Agency**, status (Pending / Approved / Rejected), login email with **Change**, phone, “Joined …”, a % **complete** ring, and numbers: Properties, Leads, Plan (or “Plan · via agency”), Documents x/y. Button **Submit for Approval** / **Resubmit for Approval** when allowed.

KYC progress card

Shown until approval. Four steps: **Details & documents** (“x/y documents uploaded”), **Submit for approval**, **Admin review**, **Approved**. Shows the rejection reason or the team's requested changes.

Sections (left menu)

Each section has **Edit**, a “x/y” progress bar and “N missing” or a tick. Plus **Documents** and **SEO** (Optional).

Below the sections

Complete your profile (up to 6 missing items, each with **Add** / **Upload**) and **Your public page** preview with **View public page** once live.

Sections per account type

Agent	Agency
Public details – Displayed name, Public email, Public number, Secondary phone number, WhatsApp	**Contact information** – Phone number, Landline, WhatsApp, Public email, City, Website URL, Address
Compliance (KYC) – Dubai Broker License (BRN), Abu Dhabi Broker License (BLN), Other license + expiry, Affiliated brokerage, Trade License No. + Expiry, TRN (VAT) + Expiry	**Other information** (KYC) – Account number, Client type, Default email address (read-only); Display client name, Contact person, VAT number (TRN), TRN expiry, Authorized signatory
About me – Experience since, Spoken languages, Nationality, Position, LinkedIn, Website, Preferred areas, Description, Arabic description	**Corporate licenses** (KYC) – Trade license number + expiry, ORN number + expiry, ADREC brokerage registration no. + ADREC expiry
Identity (KYC) – Emirates ID No., Passport No., Passport expiry	**About** – Established, LinkedIn, Service areas, Description, Arabic description

Agent	Agency
Documents – Emirates ID, Passport, RERA Broker Card, Trade License, RERA Registration Certificate (5)	**Signatory identity** (KYC) – same three fields as Identity
SEO (optional)	**Documents** – Emirates ID, Passport, Trade License, RERA Registration Certificate (4); **SEO**

2. How it works (business rules)

KYC flow and statuses

Fill details + upload documents → Submit for Approval → Admin review → Approved (CRM unlocks) / changes requested / rejected

Situation	Card title shown	Button
Not submitted yet	“Finish your KYC to unlock the CRM”	**Submit for Approval**
Submitted, waiting	“KYC submitted — waiting for review” (step Admin review “In progress”)	None
Team asked for changes (or a document was marked *Needs Re-upload*)	“Our team asked for a few updates” + “Requested by our team: …”	**Resubmit for Approval**
Rejected	“Your application needs changes” + “Reason: …”	**Resubmit for Approval**
Approved	KYC card hidden	None

- **Submitting** is allowed even if some fields or documents are missing. It sets the account to **Pending**, notifies Super Admin (bell + email to the site's notification address) and puts a “we got it” bell notification in the account's own CRM.
- Submitting again while waiting: “Your KYC is already waiting for review.” Submitting when approved: “This account is already approved.”
- **Editing a KYC section after submitting** (Compliance, Other information, Corporate licenses, Identity / Signatory identity) or uploading / removing a document sends the review back to “changes requested”, so **Resubmit for Approval** appears again. Editing Public details, Contact information, About or SEO does not.
- The account stays editable after approval. Approval status itself does not change when an approved account edits its profile.

Documents

- File types JPG, JPEG, PNG or PDF, max 4 MB. Buttons: **Add** (empty), then **View** (downloads the file), replace (sync icon) and remove (bin icon, popup “Remove this document?” › **Remove**).
- Status badge per document: **Awaiting Review** (uploaded, not checked), **Verified**, **Needs Re-upload** (with the admin's note). Not uploaded: “Not submitted”.
- Replacing or removing a document clears its earlier status (back to Awaiting Review / Not submitted).
- When Super Admin marks a document *rejected*, the account gets a bell notification and the KYC card shows “Requested by our team: <Document>: <note>”.
- Documents are private: only the account itself and Super Admin can open them.

Expiry dates

- Every expiry date shows a badge: **Valid** (more than 30 days), **Expires in N days** / **Expires today** (30 days or less), **Expired** (past).
- **Daily email job:** once a day the system emails accounts whose **Passport expiry**, **Trade License expiry** or **TRN expiry** date is today or in the past. Subject: “Your <Passport / Trade License / Tax Registration (TRN)> has expired — MW Realty”. Each expired date is emailed once; if the date is updated and later expires again, a new email is sent. Other expiry dates (ORN, ADREC, Other license) do not trigger this email. No warning is sent before the date.

Login email change

Change next to email → New email › **Send Code** → 4-digit code (valid 10 min) › **Verify & Update** → Signed out → log in with new email

- The code is sent to the **new** address (subject “Your MW Realty verification code”). Nothing changes until the code is verified.
- After success the account is signed out everywhere (this browser and the mobile app) and sent to the login page with “Email updated — please log in again with your new email address.”
- Agencies can also start it from **Other information** › Default email address › **Change it**.

Other rules

- **Photo / logo:** click the round picture. JPG, PNG or WEBP, max 4 MB, at least 120 × 120 px. Messages “Profile photo updated.” / “Logo updated.”; remove with the × (“Remove this image?”) → “Image removed.”. Shown on the public agent / agency page.
- **Affiliated brokerage** (agent): type to search approved, active agencies on MW Realty (20 at a time, scroll for more), or pick “Use “<typed text>””. This only fills the text for KYC; it does **not** join the agency or change the plan. Under the field: “Agency member: <Agency> (their plan applies)” or “Independent agent on your own plan”. Joining an agency is done in My Agency.
- **Description** is written in the site's default language and translated automatically into the other site languages, unless the Arabic description is written by hand (kept as typed).
- **Experience since** (year) also sets the years of experience shown on the website (e.g. “2018 · 8 years”).
- **Public email:** if empty, the login email is shown publicly.
- **Public page** goes live only when the account is approved and active: “Goes live on the website once your account is approved.”
- The last opened section is remembered for the browser tab; a link with `#documents` opens Documents.

3. Who can do what

Action	Super Admin	Agency	Agent	KYC pending / rejected
Open My Profile	**No – “My Profile belongs to agent and company accounts.”**	**Own**	**Own**	**Yes**
Edit sections, photo/logo, SEO	**No**	**Yes**	**Yes**	**Yes**

Action	Super Admin	Agency	Agent	KYC pending / rejected
Upload / replace / remove documents	In Admin only	Yes	Yes	Yes
Submit / Resubmit for Approval	No	Until approved	Until approved	Yes
Change login email	No	Yes	Yes	Yes
Verify documents, approve / reject account	Yes (Admin › portal account)	No	No	No

An agent inside an agency edits only their own profile; the Plan number shows the agency's plan as “Plan · via agency”. No section is locked by plan.

4. Fields and validation

Field	Required	Rules / limits
Displayed name (agent) / Contact person (agency)	Yes	Max 255. Empty: “The name field is required.”
Public number / Phone number	No	Country code chosen from the list; number without the code, digits only, 7–13 digits. Messages: “Enter the phone number without the country code — pick the code from the list.”, “The phone number may only contain digits.”, “The phone number must be 7 to 13 digits (without the country code).”, invalid code: “Choose a valid country code.”
Secondary phone, WhatsApp	No	6–30 characters: digits, spaces, ( ) - and an optional leading +.
Public email	No	Valid email, max 255.
LinkedIn, Website / Website URL	No	Full URL (e.g. https://...), max 255.
Licence / ID numbers (BRN, BLN, ORN, ADREC, Trade license, TRN, Emirates ID, Passport)	No	Max 50 characters. Other license max 100.
All expiry dates	No	Valid date (date picker).
Display client name, Authorized signatory, Affiliated brokerage, Address	No	Max 255. Landline max 50. City max 100. Position max 150. Nationality max 100.
Experience since / Established	No	Year from list; 1950 (agent) / 1900 (agency) up to the current year.
Spoken languages	No	Tick from 20 fixed languages; untick all and save to clear.
Preferred / Service areas	No	Comma separated, max 500 characters.
Description, Arabic description	No	Max 2000 characters each.

Field	Required	Rules / limits
SEO: Meta Title, OG Title	No	Max 255. Meta Description, OG Description, Meta Keywords max 500. Canonical URL valid URL. OG Image: image, max 4 MB; “Remove image” tick box.
Photo / logo	—	JPG/PNG/WEBP, max 4 MB (“Please choose an image under 4 MB.”), at least 120 × 120 px (“Use an image at least 120 × 120 pixels.”).
Document	—	JPG, JPEG, PNG or PDF, max 4 MB.
New Email Address	Yes	Valid email, not used by another agent/agency account. Empty: “Please enter an email address.”
Email code	Yes	4 digits, valid 10 minutes. Wrong / old: “Invalid or expired code.” Empty: “Please enter the code.”

5. Test scenarios

Priority: **High** core flow / data loss / access · **Medium** · **Low** cosmetic.

	Scenario	Steps	Expected result
PF-01	**Open as Agent** High	1. Sign in as an Agent. 2. Avatar menu › **My Profile**.	Cover, numbers and the agent sections (Public details, Compliance, About me, Identity, Documents, SEO) are shown with correct saved values.
PF-02	**Open as Agency** High	1. Sign in as an Agency, open My Profile.	Agency sections (Contact information, Other information, Corporate licenses, About, Signatory identity, Documents, SEO). Documents count is 4. Account number has 6 digits, Client type “Broker”.
PF-03	**Edit and save a section** High	1. Open About me › **Edit**. 2. Change Position and Nationality, click **Save**.	Button shows “Saving…” then “Saved”, form closes, new values shown. Progress “x/y” and the % ring update. Values stay after reload.
PF-04	**Cancel edit** Low	1. Edit a section, change a value, click **Cancel**.	Form closes; old value still shown; nothing saved.
PF-05	**Required name** Medium	1. Clear Displayed name (agent) or Contact person (agency), Save.	Red text “The name field is required.”; nothing saved.
PF-06	**Phone validation** Medium	1. Enter “+971501234567” in Public number; Save. 2. Enter “50abc”; Save. 3. Enter “12345”; Save. 4. Enter 501234567 with code +971; Save.	1–3: the matching phone message from section 4. 4: saved; shown as +971501234567 on the cover.
PF-07	**URL / email format** Medium	1. LinkedIn “linkedin.com/in/test” (no https); Public email “abc”; Save.	Save refused with URL and email format messages. With https:// and a valid email it saves.
PF-08	**WhatsApp format** Low	1. Enter “12ab” in WhatsApp, Save.	Refused with a format message; “+971 50 123 4567” saves.

	Scenario	Steps	Expected result
PF-09	**Expiry badges** Medium	1. Set Passport expiry to yesterday, another date to +10 days, another to +60 days.	Badges “Expired”, “Expires in 10 days”, “Valid”. Today → “Expires today”.
PF-10	**Experience since** Low	1. Pick 2018, Save.	Shown as “2018 · N years” (current year − 2018).
PF-11	**Spoken languages clear** Low	1. Tick 2 languages, Save; then untick all, Save.	First: chips shown. Second: field back to “Not added”.
PF-12	**Description translation** Medium	1. Write Description only, Save. Check the public page in Arabic after a short wait. 2. Write an Arabic description by hand, Save.	1: Arabic page shows a translated text (if translation is configured on the test site). 2: Arabic page shows exactly the hand-written text.
PF-13	**Affiliated brokerage search** Medium	1. Agent › Compliance › Edit › type part of an agency name. 2. Pick an agency; Save. Then type a name not on the list and pick “Use “…””.	Only approved, active agencies are listed. Saved text equals the pick. Agency membership note does not change (no agency joined, plan unchanged).
PF-14	**“Not added · Add” and Complete your profile** Low	1. Click **Add** next to an empty field, then an **Add** in “Complete your profile”.	The right section opens in edit mode with that field focused. Missing count goes down after saving.
PF-15	**Upload photo / logo** High	1. Click the round picture, choose a 500 × 500 JPG.	“Profile photo updated.” (agent) or “Logo updated.” (agency). Picture shown on cover, preview and public page.
PF-16	**Photo validation** Medium	1. Upload an image over 4 MB. 2. Upload a 100 × 100 image.	“Please choose an image under 4 MB.” / “Use an image at least 120 × 120 pixels.” Picture unchanged.
PF-17	**Remove photo** Low	1. Click × on the picture, confirm **Remove**.	“Image removed.” Initials shown instead.
PF-18	**Upload a document** High	1. Documents › **Add** on Passport, choose a PDF under 4 MB.	Card shows **Awaiting Review** with View / replace / remove. Documents count and KYC step “x/y documents uploaded” go up.
PF-19	**Document type / size** Medium	1. Upload a .docx; then a 6 MB PDF.	Error message about file type / size (“must not be greater than 4096 kilobytes”). Nothing saved.
PF-20	**View, replace, remove document** Medium	1. Click **View**. 2. Replace with another file. 3. Remove, confirm.	1: file downloads. 2: status back to Awaiting Review. 3: “Not submitted”, count goes down.
PF-21	**Submit for Approval** High	1. New pending account with details and documents. 2. **Submit for Approval** › **Submit for Approval** in the popup.	“KYC submitted successfully”. After **Done**: card “KYC submitted — waiting for review”, step “Sent <date>”, button gone. Bell notification for the account; Super Admin gets bell + email.

	Scenario	Steps	Expected result
PF-22	**Submit with missing items** Medium	1. Leave a document empty and submit.	Submission is accepted (not blocked). Admin decides in review.
PF-23	**Edit KYC section after submit** High	1. After PF-21, edit Identity (or Compliance / licences) and save.	Card switches to the “updates” state and **Resubmit for Approval** appears.
PF-24	**Edit non-KYC section after submit** Medium	1. After submit, edit About me / Contact information.	Still “waiting for review”; no Resubmit button.
PF-25	**Document rejected by admin** High	1. Super Admin marks Passport as rejected with note “Blurry”. 2. Account opens My Profile.	Bell notification. Passport badge **Needs Re-upload** with “Blurry”. Card “Our team asked for a few updates”, “Requested by our team: Passport: Blurry”. **Resubmit for Approval** shown.
PF-26	**Account rejected, resubmit** High	1. Super Admin rejects the account with a reason. 2. Account fixes details, **Resubmit for Approval**.	Before: “Your application needs changes” and “Reason: ...”. After: status Pending, “waiting for review”.
PF-27	**Approved account** High	1. Super Admin approves; account reloads My Profile.	KYC card and Submit button gone. Status “Approved”. Locked modules (Leads, Properties, Plans, Credits...) unlock. Public page preview shows **View public page**.
PF-28	**Change email – happy path** High	1. Click **Change** by the email; enter a new test address you can read; **Send Code**. 2. Enter the 4-digit code; **Verify & Update**.	Code email arrives at the new address. After verify: signed out and on the login page. Old email no longer signs in; new email does.
PF-29	**Change email – taken address** Medium	1. Enter the email of another agent/agency.	Error under the field (“The new email has already been taken.”). No code sent.
PF-30	**Change email – wrong / expired code** High	1. Enter a wrong code. 2. Wait more than 10 minutes and enter the real code.	Both: “Invalid or expired code.” Email unchanged; still signed in.
PF-31	**Email code throttling** Low	1. Send codes / try codes many times quickly.	After several tries within a minute a “too many attempts” error appears; wait and retry.
PF-32	**SEO save** Low	1. SEO › edit icon; fill Meta Title, Canonical URL (invalid then valid), OG Image; **Save**.	Invalid URL refused. Valid: values shown in the SEO card after saving. “Remove image” removes the OG image.
PF-33	**Agency agent view** Medium	1. Sign in as an agent inside an agency.	Plan number “Plan · via agency” with the agency's plan. Compliance note “Agency member: <Agency> (their plan applies)”.
PF-34	**KYC-pending access** High	1. Sign in as a pending account; open My Profile from the avatar menu.	No padlock on My Profile. All editing, uploads and Submit work.

	Scenario	Steps	Expected result
PF-35	**Super Admin** Medium	1. Open the CRM from Admin; check avatar menu; open `/crm/profile`.	Menu has no My Profile. Page shows “My Profile belongs to agent and company accounts.”
PF-36	**Expired document email** Medium	1. Set Passport expiry (or Trade License / TRN expiry) to yesterday on a test account with a readable email. 2. Wait for the daily job (or ask a developer to run it).	One email “Your Passport has expired — MW Realty”. Running the job again sends no second email for the same date.
PF-37	**Public page live** Medium	1. Approved account: click **View public page**. 2. Pending account: check the preview card.	Approved: public page opens in a new tab with the saved name, photo and description. Pending: “Goes live on the website once your account is approved.” and no link.
PF-38	**Mobile width** Low	1. Open My Profile at ~375 px; edit a section; open the email popup.	Cover, section menu and forms stack; buttons reachable; no sideways scrolling.

6. Expected results checklist

- [ ] Each section saves only its own fields, and values stay after reload.
- [ ] Validation messages appear for name, phone, email, URL, file type and size.
- [ ] Completeness %, “N missing” and Documents x/y match what is filled.
- [ ] Document statuses (Not submitted / Awaiting Review / Verified / Needs Re-upload) are correct and reset on replace.
- [ ] KYC card states and Submit / Resubmit button follow the table in section 2.
- [ ] Changing a KYC section or document after submitting brings back Resubmit.
- [ ] Email change needs the code from the new address and signs the user out.
- [ ] Expired passport / trade licence / TRN dates send one email each.
- [ ] Profile works while KYC is pending; Super Admin cannot open it.
- [ ] Affiliated brokerage never joins an agency or changes the plan.

7. Known behaviour (not bugs)

By design:

- Submit for Approval is allowed with missing details or documents.
- After your own edit to a KYC section, the card says “Our team asked for a few updates” even though no one asked – it only means a resubmit is needed.
- Affiliated brokerage is text for KYC only; it is not agency membership.
- The expiry email is sent after the date passes, not before, and only for Passport, Trade License and TRN.
- After changing the login email the user is signed out on all devices.
- No password change here (see the Security guide for sign-in protection).
- Automatic translation of the description may take a short time and depends on the test site's set-up.

> **Test-data cautions:** upload only fake or sample documents (never real IDs or passports). Use test email addresses you control. Do not change the login email of a shared test account without telling the test lead. Do not submit real company licence numbers.

8. Reporting a bug

Include: module (My Profile), account type and email, KYC status, section and field, value entered, steps, expected vs actual, exact message, time, screenshot. Use test data only.
