MW REALTY CRM · TESTER HANDBOOK · MODULE 17

Reports

Leads, Properties, Sales and Agents reports: what each number means, date ranges, export and plan lock

Where: CRM sidebar › Insights › Reports (`/crm/reports` , tabs `/crm/reports/leads` , `/properties` , `/sales` , `/agents`). The old address `/crm/reports/revenue` opens the Sales tab. **Who:** Super Admin (all data), Agency (4 tabs), Agent (3 tabs, no Agents). **Locks:** KYC approval required; the plan must include **Reports**, otherwise an “Unlock reports & analytics” card is shown.

1. What this module does

Reports summarise the account's performance: how many leads came in and from where, how the listing portfolio looks, how much was sold or rented, and how each agent of an agency is doing. Everything is read-only. The only download is the Sales deals CSV.

Leads tab (default)

Totals, new leads in the period, closed leads, conversion, charts by time / stage / source, Most Enquired Properties.

Properties tab

Totals, active / inactive, Featured Now, added in the period, charts, Top Properties by Leads table.

Sales tab

Value of won deals, deals closed, average deal, win rate, lost / open / all-time, breakdowns, **All Deals** table with filters and **Export CSV**. Super Admin also sees **MW Realty Plan Sales**.

Agents tab

Agency and Super Admin only. Agent counts by status, leads per agent chart, **Agent Performance** table.

2. How it works (business rules)

Pick a tab → Pick a range: 7 Days / 30 Days / 90 Days / 12 Months → Numbers for the account's scope

2.1 Date range

- Buttons at the top right: **7 Days**, **30 Days** (default), **90 Days**, **12 Months**. The choice is kept in the address bar (`?range=7` , `30` , `90` , `365`) and when switching tabs. Any other value falls back to 30 days.
- A range of N days runs from the **start of the day** N−1 days ago until now. Example: 7 Days on a Friday = from Saturday 00:00 of the previous week to now (today included).
- Charts “over time” show one bar/point per day; for **12 Months** they show one per month (e.g. “Oct 2026”). Days without data show 0.
- The small arrow badge (e.g. “↑ 12%”) compares the range with the same length of time just before it. Hover text: “vs the previous N days”. No badge when the previous period is 0.
- Many numbers are **all-time** and do not change with the range. The table below marks which.

2.2 Scope: whose data is counted

Signed in as	Leads and sales	Properties
Super Admin	All accounts. Note under the title: “Showing every account's data (Super Admin).”	All accounts
Agency	Leads the agency owns (incl. those assigned to its agents)	Listings the agency owns
Independent agent	Own leads	Own listings
Agent in an agency	Own leads + agency leads assigned to the agent	Own listings + agency listings assigned to the agent

This is the same scope as the Leads and Properties lists. Deleted leads are not counted. Property numbers include residential, commercial, and sold/rented listings.

2.3 Won, lost and closed

- A lead is **closed** when its stage is marked closed (Master › Stages).
- **Lost** = closed stage whose name contains one of these whole words (any case): lost, drop, dropped, cancel, cancelled, canceled, reject, rejected, dead, junk. **Won** = every other closed stage.
- **Closed date** = when the lead entered a closed stage. Moving it back to an open stage clears the date. When a listing is marked sold/rented and linked to a lead, that lead becomes won with the **sale date** as its closed date.
- **Deal value** = the recorded sold/rent price if the listing was marked sold to this lead, otherwise the listing's price. All values are shown as “AED 1,234,567”.
- Sales only count leads **linked to a listing**. Leads without a property are not deals.

2.4 Leads tab

Item	Meaning	Range?
Total Leads	All leads in scope.	All-time
New (30 Days) + arrow	Leads created in the range, change vs previous period.	Range
Closed Leads	Leads in any closed stage (won and lost).	All-time
Conversion Rate	Closed Leads ÷ Total Leads, 1 decimal (0% if no leads).	All-time
Not Assigned to an Agent	Agency only: agency leads with no agent. Click opens Leads.	All-time
Leads Over Time	Line chart of leads created.	Range
Leads by Stage	Doughnut by stage in stage colours. Leads without a stage are not in it. Empty: “No leads yet.”	All-time
Leads by Source	Top 8 sources. A lead with no CRM source is grouped by where it came in (e.g. page name), else “Direct / Manual”. Empty: “No leads yet.”	All-time
Most Enquired Properties (30 Days)	Top 5 listings by leads created in the range: title, reference, Sale/Rent, count. A removed listing shows “Deleted property”. Empty: “No property enquiries in this period.”	Range

2.5 Properties tab

Item	Meaning	Range?
Total Properties, **Active**, **Inactive**	Listings in scope; Active + Inactive = Total.	All-time
Featured Now	Listings with Premium running right now (started, not ended).	Now
Added (30 Days)	Listings created in the range.	Range
Listings Added Over Time	Bar chart of listings created.	Range
Sale vs Rent, **By Property Type** (top 8), **Residential vs Commercial**	Breakdowns of all listings. Missing value shows “Not set”. Empty: “No properties yet.”	All-time
Top Properties by Leads	Up to 8 listings that have at least one lead. Columns: Property (title + reference, links to the listing), Type, Price, Status (Active/Inactive), Leads (range), All-time Leads. Sorted by range leads, then all-time. Empty: “None of these properties have received leads yet.”	Both

2.6 Sales tab

Item	Meaning	Range?
Total Sales + arrow	Sum of deal values of won deals closed in the range; change vs previous period.	Range
Deals Closed	Number of won deals closed in the range.	Range
Average Deal	Total Sales ÷ Deals Closed (AED 0 if none).	Range
Win Rate	Won ÷ (won + lost) closed in the range, 1 decimal; “—” if none.	Range
Lost Deals · N deals	Value and count of lost deals closed in the range.	Range
Open Pipeline · N open deals	Leads on a listing that are not closed (or have no stage), at the listing price.	All-time
All-Time Sales · N deals ever	All won deals ever.	All-time
Sales Over Time	Won value per day (per month for 12 Months), by closed date.	Range
Sale vs Rent	Won value split by listing type. Empty: “No deals closed in this period.”	Range
Sales by Agent	Agency and Super Admin: top 10 agents (only deals with an agent).	Range
Sales by Account	Super Admin only: top 10 accounts.	Range
Sales by Property Type, **Sales by Location**	Top 8 each. A breakdown block is hidden when it has no rows.	Range
All Deals	“N deals · 30 Days”. Columns: Closed, Client (links to the lead, shows email or phone), Property (title, reference · Sale/Rent · location), Agent, Account (Super Admin only), Outcome (stage badge), Value. Newest closed first, 20 per page.	Range

All Deals filters: search box “Search client, email, phone, property, reference or agent”; outcome list **Won** (default), **Lost**, **Won & Lost**; listing list **Sale & Rent**, **Sale**, **Rent**; button **Filter**; **Clear** appears once a filter

is in the address bar. Filters only change the All Deals table and the CSV, not the KPI cards or charts. Empty table: “No deals match. Move a lead to a won stage (e.g. “Closed Won”) in the CRM and it shows up here.”

Export CSV: downloads `sales-report-YYYY-MM-DD.csv` with every deal matching the current range and the **applied** filters (not only the current page). Columns: Closed, Outcome, Client, Email, Phone, Property, Reference, Listing, Type, Location, Agent, Account (Super Admin only), Value (AED). On failure: toast “Could not export the deals — please try again.”

MW Realty Plan Sales (Super Admin only, above the property sales): “Paid plan subscriptions from agents & agencies (30 Days). Visible to Super Admin only.” Cards **Plan Sales** (with arrow), **Payments**, **Paying Accounts**, **Coupon Discounts**; a line chart; a list per plan (“N payments”, amount) or “No paid plan payments in this period.”; button **All Payments** opens the Admin payments list. Below it the heading “Property Sales — all agents & agencies”.

2.7 Agents tab (Agency and Super Admin)

Item	Meaning
Active Agents / **Suspended** / **Pending Approval**	Agents in the agency with membership Active, Suspended, or waiting for Super Admin approval. Invitations and join requests not yet accepted are not counted.
Assigned Properties	Agency listings assigned to Active or Suspended agents (all-time).
Leads to Agents (30 Days)	Agency leads assigned to Active/Suspended agents and created in the range.
Yellow warning	Agency only, when some agency listings have no agent: “N of your properties have no agent assigned — leads on them stay with the agency.”
Leads per Agent (30 Days)	Bar chart, up to 10 member agents. Hidden if there are no member agents.
Agent Performance	Columns: Agent (name, email), Agency (Super Admin only), Status (“Active”, “Suspended”, “Pending admin approval”), Properties (active / total assigned), Leads (range, with bar), All-time Leads, Closed, Conversion (closed ÷ all-time leads), Last Lead (time ago or “—”). Sorted by range leads, then all-time. Footer: “Properties shows active / total listings assigned to the agent. Leads and conversion count only your agency's leads assigned to them.” Empty: “No agents in your agency yet. Add or invite agents.” (link only for agencies).

3. Who can do what

Action	Super Admin	Agency	Agent
Open Reports	**Yes, always**	**Approved + plan with Reports**	**Approved + plan with Reports (agency's plan if on it)**
Leads, Properties, Sales tabs	**Yes**	**Yes**	**Yes**
Agents tab	**Yes (all agencies)**	**Yes (own agents)**	**No (tab hidden)**

Action	Super Admin	Agency	Agent
Export Sales CSV	**Yes (with Account column)**	**Yes**	**Yes**
MW Realty Plan Sales	**Yes**	**No**	**No**
Sales by Agent / Sales by Account	**Both**	**By Agent only**	**No**

State	Sidebar	Page
KYC pending	Padlock, tooltip “Unlocks after KYC approval”.	Message “Your account is pending Super Admin approval.” with **Try again**.
Plan without Reports (own plan)	Padlock, tooltip “Upgrade your plan to unlock reports”.	Card **Unlock reports & analytics**: “Leads, Properties reports — …” (agency: “Leads, Properties and Agents reports — … and how each of your agents is doing”), then “Reports aren't included in your <plan> plan.” and **View Plans**.
Agent on an agency plan without Reports	Padlock.	Same card: “Reports aren't included in <Agency>'s <plan> plan. Ask your agency to upgrade.” No View Plans button.

The Dashboard plan card shows “Reports on” or “Reports off” for the same plan setting. The lock applies to every tab and to the CSV export.

4. Fields and validation

Input	Allowed values	Invalid value
Range	7, 30, 90, 365	Treated as 30.
Report tab in the address	leads, properties, sales, agents (agents: agency / Super Admin)	Agent opening `/crm/reports/agents` : error message with Try again. Unknown name: CRM “Page not found”.
Sales search	Free text, partial match on client name, email, phone, listing reference, listing title, agent name	—
Outcome	won, lost, all	Treated as won.
Listing	sale, rent, empty	Treated as both.

5. Test scenarios

Priority: **High** core flow / data / access · **Medium** · **Low** cosmetic. Write down role, account, range and time for every check.

	Scenario	Steps	Expected result
RP-01	**Open Reports** High	1. Approved Agency with Reports in plan: sidebar › Reports.	Opens the **Leads** tab with **30 Days** active. Tabs: Leads, Properties, Sales, Agents.
RP-02	**Agent tabs** High	1. Sign in as an agent with Reports. 2. Open Reports, then type `/crm/reports/agents`.	Only Leads, Properties, Sales tabs. The agents address shows an error message with **Try again**, no data.
RP-03	**Plan lock** High	1. Approved Agency on a plan without Reports: hover and open Reports. 2. Click **View Plans**.	Padlock tooltip “Upgrade your plan to unlock reports”. Card “Unlock reports & analytics” mentions Agents (agency) and names the plan. View Plans opens Plans.
RP-04	**Plan lock via agency** Medium	1. Agent on that agency's plan opens Reports.	“Reports aren't included in <Agency>'s <plan> plan. Ask your agency to upgrade.” No button. Text does not mention Agents.
RP-05	**Lock on every tab and export** High	1. Locked account: open `/crm/reports/properties`, `/crm/reports/sales` and (agency) `/crm/reports/agents` directly.	Every address shows the unlock card. No tabs, no data and no **Export CSV** button are shown.
RP-06	**KYC pending** High	1. Not-approved partner opens Reports.	Padlock “Unlocks after KYC approval”. Message “Your account is pending Super Admin approval.” with Try again.
RP-07	**Super Admin** High	1. Admin › CRM › Reports.	No lock. Note “Showing every account's data (Super Admin).” Agents tab lists agents of all agencies with an Agency column.
RP-08	**Revenue redirect** Low	1. Open `/crm/reports/revenue?range=90`.	Address changes to `/crm/reports/sales?range=90`; Sales tab with 90 Days.
RP-09	**Range switch** High	1. Click 7 Days, 90 Days, 12 Months. 2. Switch tab. 3. Refresh.	Active button and labels (“New (7 Days)”, “Added (90 Days)”, “Leads (12 Months)”) follow the range; range stays when switching tab and after refresh. 12 Months charts show months.
RP-10	**Invalid range** Low	1. Open `/crm/reports/leads?range=15`.	Data for 30 Days; 30 Days highlighted.
RP-11	**Total Leads matches Leads list** High	1. Compare **Total Leads** with the Leads list Total (no filters).	Equal. Also equal to Dashboard Total enquiries.
RP-12	**New leads in range** High	1. Note **New (7 Days)**. 2. Create a test lead. Reload. 3. Count leads created since 00:00 six days ago in Leads.	New +1 and Total +1. Leads Over Time: today's point +1. Count matches the Leads list count.

	Scenario	Steps	Expected result
RP-13	**Closed and conversion** High	1. Move a test lead to any closed stage (won or lost).	Closed Leads +1. Conversion Rate = Closed ÷ Total with 1 decimal. Leads by Stage shows the stage slice.
RP-14	**Leads by Source** Medium	1. Filter Leads by a source and compare counts. 2. Create a manual lead with no source.	Bars equal the Leads counts (all-time, max 8). The no-source lead appears under its entry page name or “Direct / Manual”.
RP-15	**Not Assigned to an Agent** Medium	1. As Agency, count leads with no agent in Leads. 2. Assign one to an agent.	Card equals the count and drops by 1 after assigning. Card not shown for agents or Super Admin.
RP-16	**Most Enquired Properties** Medium	1. Create 2 test leads on listing A today.	Listing A in the top 5 with its count for the range; not shown in a range that excludes those leads (no data: “No property enquiries in this period.”).
RP-17	**Properties totals** High	1. Compare Total / Active / Inactive with Properties + Commercial + Sold Listings lists (filter Active / Inactive).	Totals equal the sum of the lists; Active + Inactive = Total.
RP-18	**Featured Now** Medium	1. Compare with Premium listings currently running. 2. Schedule Premium to start next week on a test listing (test credits).	Equal to running Premium listings; the scheduled one is not counted until it starts.
RP-19	**Properties breakdowns** Medium	1. Filter Properties by Sale and Rent; count Commercial.	Sale vs Rent and Residential vs Commercial doughnuts match. Property type bars (top 8) match the counts per type.
RP-20	**Top Properties by Leads** Medium	1. Check the table and click a title.	Only listings with ≥1 lead; All-time Leads equals the listing's lead count in Properties; the title opens the listing page.
RP-21	**Won deal appears in Sales** High	1. Take a test lead linked to a listing priced AED 1,000,000. 2. Move it to a won stage (closed, name without lost words). Open Sales, 7 Days.	Total Sales +AED 1,000,000, Deals Closed +1, Average and Win Rate updated. Deal is first in All Deals with today's date and the stage as Outcome. All-Time Sales +1.
RP-22	**Lost deal** High	1. Move another listing-linked lead to a closed stage named e.g. “Closed Lost” or “Dropped”.	Lost Deals value/count +1; Win Rate falls; Total Sales unchanged. Visible in All Deals with outcome **Lost** or **Won & Lost**.
RP-23	**Reopen a deal** Medium	1. Move the RP-21 lead back to an open stage.	Removed from Total Sales and All Deals; Open Pipeline +1 at the listing price.
RP-24	**Lead without listing** Medium	1. Move a lead with no property to a won stage.	No change in Sales (only Leads tab Closed Leads +1).
RP-25	**Marked sold value and date** High	1. Mark a test listing sold to a test lead with sold price AED 900,000 and a sale date 3 days ago. 2. Open Sales, 7 Days.	Deal listed with Closed = the sale date and Value = AED 900,000 (not the listing price). Lead stage is the won stage.

	Scenario	Steps	Expected result
RP-26	**Range and previous period** Medium	1. Compare Total Sales for 7, 30, 90 Days and 12 Months.	Larger ranges include smaller ones (never lower). Arrow shown only if the previous period had sales; hover “vs the previous N days”.
RP-27	**All Deals search** High	1. Search a client name, then a listing reference, then an agent name; click **Filter**.	Only matching deals; count line “N deals · range” updates; KPI cards unchanged; **Clear** appears.
RP-28	**Outcome and listing filters** Medium	1. Choose Lost, then Won & Lost; choose Sale, then Rent; Filter each time. 2. Click Clear.	Rows match the selection. Clear returns to Won, Sale & Rent, empty search, same range.
RP-29	**No matching deals** Low	1. Search “zzzz-none”.	“No deals match. Move a lead to a won stage (e.g. “Closed Won”) in the CRM and it shows up here.”
RP-30	**All Deals pagination** Medium	1. With more than 20 deals, go to page 2.	20 rows per page, page number in the address; filters kept.
RP-31	**Export CSV** High	1. Apply a filter (e.g. Sale, 90 Days). 2. Click **Export CSV**. 3. Open the file.	File `sales-report-<today>.csv`. Header row as in 2.6. Row count = the “N deals” figure (all pages, not only page 1). Values match the table. Button is disabled while downloading.
RP-32	**Export uses applied filters** Medium	1. Type a search but do **not** click Filter. 2. Export.	The file follows the last applied filters, not the unsaved text in the box.
RP-33	**Super Admin Sales extras** Medium	1. As Super Admin open Sales. 2. Click **All Payments**.	“MW Realty Plan Sales” block with 4 cards and per-plan list; Sales by Account block; Account column in All Deals and CSV. All Payments opens the Admin payments list.
RP-34	**Agency breakdowns** Low	1. As Agency with won deals assigned to agents, open Sales.	Sales by Agent, Sales by Property Type, Sales by Location shown; no Sales by Account; no Plan Sales.
RP-35	**Agents tab counts** High	1. As Agency compare Active / Suspended / Pending Approval with the Agents module.	Counts match the agents with those statuses. Invited / requested agents are not counted.
RP-36	**Agent performance row** High	1. Assign one agency listing and two agency leads to Agent A; close one lead. 2. Reload the Agents tab.	Agent A: Properties “active / total” includes the listing; All-time Leads +2; Closed +1; Conversion = closed ÷ all-time leads; Last Lead updated.
RP-37	**Unassigned listings warning** Medium	1. Agency with listings that have no agent.	Yellow warning “N of your properties have no agent assigned — leads on them stay with the agency.” N counts every agency listing with no agent, including commercial and sold/rented ones.
RP-38	**Agency with no agents** Low	1. Open the Agents tab for an agency without agents.	“No agents in your agency yet. Add or invite agents.” Link opens Agents. No chart.

	Scenario	Steps	Expected result
RP-39	**Scope isolation** High	1. Create a won deal in Agency Y. 2. Check Agency X and Super Admin.	X unchanged; Super Admin totals include it.
RP-40	**Agency agent scope** Medium	1. Agent A (on agency plan with Reports) opens Leads and Properties tabs.	Counts include agency leads/listings assigned to A, plus A's own; never other agents' items.
RP-41	**Empty account** Medium	1. Approved account with Reports but no data: open each tab.	Zeros, flat charts, empty texts (“No leads yet.”, “No properties yet.”, “No deals closed in this period.”, “No deals match…”). Win Rate “—”.
RP-42	**Mobile width** Low	1. 375 px wide: open each tab.	KPI cards 2 per row, charts stack, tables scroll inside their card, range buttons wrap; no page-level horizontal scroll.

6. Expected results checklist

- [ ] Reports open only for approved accounts whose plan includes Reports; Super Admin always.
- [ ] Locked accounts see the right unlock text (own plan vs agency plan) on every tab.
- [ ] Agents tab only for agencies and Super Admin.
- [ ] Range buttons change only the range-based numbers; all-time numbers stay the same.
- [ ] Total Leads equals the Leads list; property totals equal Properties + Commercial + Sold Listings.
- [ ] Won / lost follow the stage rules in 2.3; leads without a listing are not deals.
- [ ] All Deals filters, pagination and Clear work; CSV matches the applied filters and contains all pages.
- [ ] No account sees another account's data.

7. Known behaviour (not bugs)

Note:

- **Total Leads** , **Closed Leads**, **Conversion Rate**, source and stage charts are all-time, even when a short range is selected.
- **Open Pipeline** and **All-Time Sales** are not limited by the range.
- The All Deals filters do not change the KPI cards or charts above.
- Sales values always show “AED”, even if the listing has another currency.
- Deals are counted on their **closed date** , not the lead's created date. A sale recorded today with an older sale date appears on that older date.
- Reports treat stage names with lost / dropped / cancelled / rejected / dead / junk as lost. The Dashboard only treats names containing “lost” as lost, so Dashboard and Sales win rates can differ.
- Super Admin “Leads by Stage” shows each account's stages separately, so the same stage name can appear more than once.
- Dashboard “last 30 days” is a rolling 30×24 hours; Reports “30 Days” starts at midnight 29 days ago. Small differences between them are expected.
- Agent Performance counts only **agency** leads and listings assigned to the agent, not the agent's personal ones.

> **Test data:** use test leads and listings only. Do not mark real listings sold. Do not buy plans or Premium with real cards; use QA test plans and credits. Do not share exported CSV files; they contain contact data.

8. Reporting a bug

Include: role and account, plan, tab, range, filters used, the number shown vs expected, how you counted it (list, filters, sample lead / listing IDs), the time you tested, and screenshots. For export bugs attach the CSV (test data only).
